MY GENETIC HEALTH

Empowering your reproductive choices with **GENETIC COUNSELLING**

GENETIC COUNSELLING

Our private telegenetics services are provided in English or French by our team of certified genetic counsellors.

- Preconception assessment*
- Suspicion of genetic cause of infertility
- Unexplained recurrent miscarriages (>3)
- Relevant personal and/or family history
- Genetic risk associated with egg or sperm donor
- Preimplantation genetic testing (PGT-A, PGT-M, PGT-SR)

**Available for all patients without specific criteria*

Comprehensive genetic information

Personalized guidance

Optimized fertility treatment

Empathetic psychosocial support

GENETIC ANALYSIS

REFERRAL REQUIRED

Most testing requires pre-test genetic counselling for informed consent, and includes post-test consultation for result interpretation.

EXPANDED CARRIER SCREENING PACKAGE

Discover if you are at risk to transmit genetic condition to your offspring (more than 500 genes tested). No referral required.
